### OFFICE OF THE MACHINE TOOL CONTROLLER IN MYSORE, MYSORE CHAMBER OF COMMERCE BUILDINGS, KEMPEGOWDA ROAD, BANGALORE.

**Copy of press note issued by the Government of India.**

*Notification No. B9-M.T.C.*—43-44, *dated 29th June* 1944.

The Government of India have decided to revert to the use of trade channels for the acquisition in future of new machine tools to be manufactured in India, but at the same time to preserve the basis of the rationalisation measures that are now in force through a licensing system. Under present arrangements orders for the manufacture of machine tools in India, whether required on Government account or for industrial users, are aggregated and contracted for by Government and Government arrange for the re-sale and distribution of the machine tools required by industrial users. With effect from 1st of April 1944 the following new arrangements will be brought into effect :—

(1) On application to the Machine Tool Controller, Directorate-General, Munitions Production, Calcutta, manufacturing licences will be issued to Indian machine tool manufacturers to cover their forward production programmes.

(2) Industrial users desirous of acquiring Indian-made machine tools will apply in the same manner as hitherto, through the appropriate Regional Representative of the Machine Tool Controller located at Calcutta, Bombay, Madras, Cawnpore and Lahore, for an authorisation to acquire. Having received his authorisation the Industrial user will be at liberty to enter into direct purchase negotiations with any individual machine tool manufacturer and/or his Agents or recognised dealers.

(3) Statutory maxima prices will from time to time be published for new machine tools in future to be manufactured in India. These statutory prices, whilst imposing a limit on the price at which newly manufactured Indian Machine Tools can be sold, will not debar sales at a lower cost.

(4) To assist industrial users in their negotiations with Indian manufacturers and/or their agents or recognised dealers, a list of manufacturers showing the types and grades of machine tools they are licensed to manufacture, will be furnished on application to the Machine Tool Controller. Industrial users are advised to deal only with those manufacturers and/or their agents or authorised dealers in accordance with the Machine Tool Controller's list, who are capable of supplying the grade they require. In placing orders on manufacturers in India and/or on their Agents or authorised dealers, care should be taken to specify the precise grade of machine tool required.

(5) Manufacturers holding manufacturing licences from the Machine Tool Controller should obtain their requirements of steel and other raw materials through the Industries and Civil Supplies Department of the Central Government. These will be available at commercial rates. For any other assistance manufacturers should apply to the Machine Tool Controller. The same technical assistance as hitherto will be available to manufacturers.

(6) Industrial users who require machine tools of classes or grades that cannot be made in India and can only be secured from overseas, should continue to apply as hitherto to the Machine Tool Controller for an import licence. The grant of import licences for machine tools for which Indian production is established, will only be authorised in exceptional circumstances and for special and sufficient reason in each case.

### OFFICE OF THE PUBLICITY OFFICER TO THE GOVERNMENT OF MYSORE, PUBLIC OFFICES, BANGALORE.

*Notification dated 30th June* 1944.

**Press Communique.**

According to Government Notification No. S. D. 8434-C.—122-43-44, dated the 9th June 1944, all dealers in firewood and charcoal in the City of Bangalore and within the limits of Bangalore North and South Taluks are required to take out licenses and sell fuel and charcoal from the 1st July 1944, at prices not exceeding the limits fixed by Government in the Notification.

Government are pleased to agree to the above proposal on the understanding that the licensed merchants will wholeheartedly co-operate with them in the measures undertaken by them for controlling fuel and charcoal and that the prices already fixed by them in their Notification of the 9th June 1944, will be adhered to from the 1st August 1944.

The retail prices, as now revised, will be as follows:—

### OFFICE OF THE MACHINE TOOL CONTROLLER IN MYSORE, MYSORE CHAMBER OF COMMERCE BUILDINGS, KEMPEGOWDA ROAD, BANGALORE.

**Copy of press note issued by the Government of India.**

*Notification No. B9-M.T.C.*—43-44, *dated* 29*th June* 1944.

The Government of India have decided to revert to the use of trade channels for the acquisition in future of new machine tools to be manufactured in India, but at the same time to preserve the basis of the rationalisation measures that are now in force through a licensing system. Under present arrangements orders for the manufacture of machine tools in India, whether required on Government account or for industrial users, are aggregated and contracted for by Government and Government arrange for the re-sale and distribution of the machine tools required by industrial users. With effect from 1st of April 1944 the following new arrangements will be brought into effect :—

(1) On application to the Machine Tool Controller, Directorate-General, Munitions Production, Calcutta, manufacturing licences will be issued to Indian machine tool manufacturers to cover their forward production programmes.

(2) Industrial users desirous of acquiring Indian-made machine tools will apply in the same manner as hitherto, through the appropriate Regional Representative of the Machine Tool Controller located at Calcutta, Bombay, Madras, Cawnpore and Lahore, for an authorisation to acquire. Having received his authorisation the Industrial user will be at liberty to enter into direct purchase negotiations with any individual machine tool manufacturer and/or his Agents or recognised dealers.

(3) Statutory maxima prices will from time to time be published for new machine tools in future to be manufactured in India. These statutory prices, whilst imposing a limit on the price at which newly manufactured Indian Machine Tools can be sold, will not debar sales at a lower cost.

(4) To assist industrial users in their negotiations with Indian manufacturers and/or their agents or recognised dealers, a list of manufacturers showing the types and grades of machine tools they are licensed to manufacture, will be furnished on application to the Machine Tool Controller. Industrial users are advised to deal only with those manufacturers and/or their agents or authorised dealers in accordance with the Machine Tool Controller's list, who are capable of supplying the grade they require. In placing orders on manufacturers in India and/or on their Agents or authorised dealers, care should be taken to specify the precise grade of machine tool required.

(5) Manufacturers holding manufacturing licences from the Machine Tool Controller should obtain their requirements of steel and other raw materials through the Industries and Civil Supplies Department of the Central Government. These will be available at commercial rates. For any other assistance manufacturers should apply to the Machine Tool Controller. The same technical assistance as hitherto will be available to manufacturers.

(6) Industrial users who require machine tools of classes or grades that cannot be made in India and can only be secured from overseas, should continue to apply as hitherto to the Machine Tool Controller for an import licence. The grant of import licences for machine tools for which Indian production is established, will only be authorised in exceptional circumstances and for special and sufficient reason in each case.

## OFFICE OF THE MACHINE TOOL CONTROLLER IN MYSORE, MYSORE CHAMBER OF COMMERCE BUILDINGS, KEMPEGOWDA ROAD, BANGALORE.

**Copy of press note issued by the Government of India.**

*Notification No. B9-M.T.C.—43-44, dated 29th June* 1944.

The Government of India have decided to revert to the use of trade channels for the acquisition in future of new machine tools to be manufactured in India, but at the same time to preserve the basis of the rationalisation measures that are now in force through a licensing system. Under present arrangements orders for the manufacture of machine tools in India, whether required on Government account or for industrial users, are aggregated and contracted for by Government and Government arrange for the re-sale and distribution of the machine tools required by industrial users. With effect from 1st of April 1944 the following new arrangements will be brought into effect :—

(1) On application to the Machine Tool Controller, Directorate-General, Munitions Production, Calcutta, manufacturing licences will be issued to Indian machine tool manufacturers to cover their forward production programmes.

(2) Industrial users desirous of acquiring Indian-made machine tools will apply in the same manner as hitherto, through the appropriate Regional Representative of the Machine Tool Controller located at Calcutta, Bombay, Madras, Cawnpore and Lahore, for an authorisation to acquire. Having received his authorisation the Industrial user will be at liberty to enter into direct purchase negotiations with any individual machine tool manufacturer and/or his Agents or recognised dealers.

(3) Statutory maxima prices will from time to time be published for new machine tools in future to be manufactured in India. These statutory prices, whilst imposing a limit on the price at which newly manufactured Indian Machine Tools can be sold, will not debar sales at a lower cost.

(4) To assist industrial users in their negotiations with Indian manufacturers and/or their agents or recognised dealers, a list of manufacturers showing the types and grades of machine tools they are licensed to manufacture, will be furnished on application to the Machine Tool Controller. Industrial users are advised to deal only with those manufacturers and/or their agents or authorised dealers in accordance with the Machine Tool Controller's list, who are capable of supplying the grade they require. In placing orders on manufacturers in India and/or on their Agents or authorised dealers, care should be taken to specify the precise grade of machine tool required.

(5) Manufacturers holding manufacturing licences from the Machine Tool Controller should obtain their requirements of steel and other raw materials through the Industries and Civil Supplies Department of the Central Government. These will be available at commercial rates. For any other assistance manufacturers should apply to the Machine Tool Controller. The same technical assistance as hitherto will be available to manufacturers.

(6) Industrial users who require machine tools of classes or grades that cannot be made in India and can only be secured from overseas, should continue to apply as hitherto to the Machine Tool Controller for an import licence. The grant of import licences for machine tools for which Indian production is established, will only be authorised in exceptional circumstances and for special and sufficient reason in each case.

### OFFICE OF THE DIRECTOR OF FOOD SUPPLIES, BANGALORE.

*Notification No.* 492—*Spl., dated* 21*st July* 1944.

PRESS NOTE.

It has been brought to notice that some misapprehension exists in the minds of declared holders and other persons from whom the entire quantity of foodgrains have not been called up for delivery and who are keeping in safe custody the foodgrains left with them, that the storage fee of two annas per palla per month will not be paid even if they store the grains with them on behalf of Government for delivery when demanded. Government wish to impress that no such misapprehension need be entertained and that persons who are keeping in safe custody foodgrains kept with them will be paid at the above rate promptly, even in cases where formal mutchalikas have not been taken.

Necessary instructions have been given to all concerned that payment is arranged for immediately.

It may be mentioned in this connection that this premium would be payable for a full month if the period of storage exceeds half a month and will not be payable if the period is less.

C. card correspond with those in the form of application for admission to the examination in every respect and that the date of birth entered in the S. S. L. C. card corresponds with that in the admission register of the school.

(*c*) The Heads of High Schools should arrange the applications and the S.S.L.C. cards separately in the same order, *i.e.*, firstly, according to the second language chosen by them and secondly, in the alphabetical order under the several second languages. In no case should the application forms and the S.S.L.C. cards be mixed up, as this will lead to confusion while checking the applications. The applications and S.S.L.C. cards of candidates who have been declared "Passed" in previous years should be separated from others and arranged in the same manner as stated above.

(*d*) The Heads of High Schools should also furnish a separate certificate to the effect that all the entries in the form of application and the S.S.L.C. card agree with those made in the admission register of the schools.

(*e*) A classified statement showing the names of candidates under "Ordinary" and "Supplementary" Certificates, the several second languages and optional subjects offered by them should accompany the applications for candidature.

13. The admission tickets of candidates who appear for the several Examinations of 1945 *by private study* will be sent direct to the candidates concerned by ordinary post to the addresses furnished by them in their application for admission to the examination about 15 days prior to the date of the commencement of the examination to which the particular candidate has appeared. Private candidates are therefore advised to enter their postal address clearly in their application forms. *The Examination Office cannot undertake to note the changes in the address intimated after the applications are sent in* and it will not be responsible for non-delivery of admission tickets, etc., sent to the candidates concerned in consequence of the incompleteness or inaccuracy or change of the postal addresses furnished by them.

14. Applications for the Teachers' Certificate Examination—Secondary Grade—(both Theory and Practical) from private candidates will not be accepted unless they had appeared for the examination and failed at least once. But teachers in recognised schools who have put in 5 years' service or more and who had no chance of being deputed for training by the department may be admitted to the examination by private study, subject to the condition that they possess the minimum general qualifications prescribed for the examination provided that applications for admission to the examination are accompanied by certificates issued by the Inspecting Officer in direct charge of the school to the effect that the teacher possesses the minimum general educational qualification prescribed therefor, that he has put in 5 years' approved service in a recognised school, that he has been adopting approved methods of teaching in the school and that he is fit to take the examination by private study.

15. The admission of candidates to the Vernacular Teacher's Certificate Examinations by private study is regulated as hereunder :—

## MISCELLANEOUS DEPARTMENTS

### OFFICE OF THE DIRECTOR OF FOOD SUPPLIES IN MYSORE, BANGALORE.

*Notification No. H. C.* 2665—43-44, *dated* 25*th August* 1944.

To

The Deputy Commissioners of Districts.

Sir,

Adverting to G. O. No. S. D. 5993—L. 163-43, dated 6—7th March 1944, regarding the utilisation of the services of rice mill owners, the following procedure is prescribed for adoption :—

1. The selected rice mill owners will take charge of the stock of paddy in the mills where the mill itself is a depot or where the mill is not a depot, at the depots where the paddy has been stocked.

2. Before taking delivery of the stocks of paddy from Government, the rice mill owner will deposit the value of paddy taken over by him at the Government purchase price for the taluk at the nearest Taluk Treasury to the credit of the Revenue Deposit account opened for this purpose. He will then present the certified chellan to the depot clerk with the orders of the Amildar for release of stock.

3. For the quantity so delivered to the rice mill owner, the depot clerk will prepare an invoice (H. S. Form 9 or C. S. Form 12), in quadruplicate, obtaining thereon the acknowledgment of the mill owner and send one copy to the Auditor and Accounting Officer, Director's Office, one copy to the Deputy Commissioner and the third to the Amildar of the Taluk. The original copy will be retained by him in the Invoice Book itself. On the invoice, the depot clerk will give reference to the entry in his 11 (*b*) for the issue and also to the certified chellan (number and date) produced by the party. The chellan will be sent back to the Taluk Office with the above where it will be filed with a note made thereon giving reference to the invoice number and date and put in a guard file.

4. The mill owner will take possession of the paddy and maintain registers in the Forms A, B, C, appended to this letter in which he will enter all details relating to receipts, issues for milling, iluvari, despatch, etc. In these registers, he will open a separate folio for each class of paddy such as, Fine, Medium and Coarse, a daily abstract of totals being given in a few sheets reserved for the purpose at the end of the register. These registers will be supplied by the Government Press and will be in triplicate—duplicate and triplicate being perforated. The original will be retained in the mill, the duplicate will be sent to the Amildar and the triplicate to the Office of the Director of Food Supplies two days after the following weeks, *i.e.*, for the period 1st to 7th, 8th to 14th, 15th to 21st and 22nd to the end of the month.

To

The Deputy Commissioners of Districts.

Sir,

I have the honour to state that the following procedure may be adopted in respect of the wholesale merchants who have been selected for handling millets :—

1. Delivery has to be taken by the merchant at the depot indicated and he must make arrangements for removing the stock within a reasonable time from the depot to his own godown unless the Deputy Commissioner permits him to use the existing godown under such terms as the Deputy Commissioner deems fit, pending the receipt of instructions for despatching those quantities to the places to which they are to be transported.

2. The merchant will be allowed to take the grains only after the full payment is made for the grains, at the wholesale purchase rates fixed for the Taluk, in the Treasury, to the Revenue Deposit Account of the Amildar.

3. The depot clerk, on production of an order by the Amildar that money has been received and that the grain may be handed over, shall deliver the millets to the wholesale merchant, preparing an invoice (H. S. Form 9 and C. S. Form 12) in quadruplicate, obtain the acknowledgment of the merchant or his authorised agent, send one copy to the Auditor, Director's Office, one to the Deputy Comissioner and one to the Taluk Office and retain the original in the invoice book.

4. When the food grains have to be transported to the consuming centre, the merchant will be given a delivery order by the Amildar or the Deputy Commissioner of the district. A copy of this delivery order will also be sent in duplicate to the Amildar of the receiving taluk for information and return of one copy duly acknowledged, to the Amildar of the despatching taluk. All acknowledged delivery orders received in the Taluk Office should be kept in a guard file.

5. *Payment* :—When the merchant moves by road a consignment of millets from his godown to a place not connected by Railway against a delivery order issued to him, he will obtain an acknowledgment on the delivery order itself from the consignee for the receipt of it and present the same to the Amildar of the taluk from which the consignment was despatched for refund of the deposited amount equivalent to the value of the commodity moved.

If, however, a consignment is moved partly by rail and partly by road to another station, the wholesale merchant will carry the commodity to the nearest railway station, book the consignment to the station of delivery or the nearest railway station to it. On production of the Railway Receipt to the Amildar of the despatching station, he will be paid 90 per cent of the amount deposited by him against this quantity and the balance of 10 per cent will be refunded to him after he produces the acknowladgment of the consignee, for the receipt of the consignment in good order, recorded on the concerned delivery order issued to him.

All refunds against delivery will be made out of the Revenue Deposit account of the Amildar. This account will be operated by a separate cheque book.

6. Once a month or oftener, if necessary, the wholesale merchant will prepare a bill for the commission and the transport charges due to him on the several consignments moved by him and present it to the Amildar of the taluk for check and payment.

For the railway freight and handling charges paid by the merchants on the consignments, they should produce, along with their bills, the receipts obtained from the station master for the amount paid against each consignment.

7. The registers to be maintained by the wholesale merchants are noted below. These registers will be supplied by the Government Press.

As the transactions take place, the two registers will be posted and kept up-to-date. In the stock ledger, separate pages will be allotted to each kind of grain and references to receipts and issues from C. S. Form 11 (c) will be noted therein.

8. *Weekly return.*—The wholesale merchant will submit stock return two days after the weeks ending the 7th, 15th, 21 and the last day of the month, to the Amildar for the millets stock with him in C. S. Form 3.

of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions.

Every blasting explosive in this class, in which nitrate of ammonium, nitrate of sodium or chloride of sodium or nitroglycol are used as ingredients, shall be contained in cartridge wrappers or cases (or in five-pound inner packages) made thoroughly water-proof with melted paraffin or other suitable water proofing material.

Blasting Explosives in this class marked "S" may be sheathed on the outside of the cartridge but not at the ends with an approved sheathing material. The outer wrapper of any sheathed cartridge shall be sufficiently strong to prevent the escape of any of the sheathing material when the cartridge is submitted to the Jolting Test. If fireproofing material is used for the outer wrapper it must not inter-act in any way with the sheathing material. Provided that when bicarbonate of soda is used as a sheathing material the cartridge shall be thoroughly waterproofed with paraffin wax or a mixture of ceresine and resin.

The chlorate mixture class has two divisions.

Every blasting explosive in this class, in which nitrate of ammonium, nitrate of sodium or chloride of sodium are used as ingredients, shall be contained in cartridge wrappers or cases (or in five-pound inner packages) made thoroughly waterproof with melted paraffin or other suitable water-proofing material.

#### DIVISION 1.

Provided that every explosive in this division shall be o such character and consistency as not to be liable to liquefaction or exudation of nitro-glycerine.

#### DIVISION 2.

Division 2 comprises any chlorate mixture as hereinbefore defined which is not comprised in Division 1.

Nil.

### CLASS 5.—FULMINATE.

The term "fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing classes or not, which from its great susceptibility to detonation, is suitable for employment in percussion caps or any other appliances for developing detonation or which from its extreme sensibility to explosion, and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes) is especially dangerous.

This class consists of two divisions.

#### DIVISION 1.

Division 1 comprises such compounds of the fulminates of silver and of mercury, and preparations of those substances such as are used in percussion caps, and any preparation consisting of a mixture of a chlorate with phosphorus or certain descriptions of compounds of phosphorus, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphuret with or without carbonaceous matter.

Nil.

#### DIVISION 2.

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, the nitrate of diazobenzol, lead azide and tetrazene

### CLASS 6.—AMMUNITION.

The term "ammunition" means any explosive of any of the foregoing classes when the same is enclosed in any case or contrivance, or is otherwise adapted or prepared so as to form a cartridge or charge for small arms, cannon or any other weapon, or to form any safety or other fuse for blasting or for shells, or to form any tube for firing explosives or to form a percussion cap, detonator, fog-signal, shell-torpedo, war-rocket, or any other contrivance other than a firework.

The term "percussion cap" does not include a detonator.

The term "detonator" means a capsule or case which is of such strength and construction and contains an explosive of the fulminate—class—in such quantity that the explosion of one capsule or case would communicate the explosion to other like capsules or cases.

The ammunition class has three divisions.

#### DIVISION 1.

*Percussion caps*, each consisting of a capsule or case of metal containing an explosive of the 5th Fulminate Class, not more than 0·5 grain, the said explosive being covered and protected by a coating of tin-foil or other material approved by the Chief Inspector of Mines and Explosives in Mysore and the said capsule or case not containing an anvil; provided that where the proportion of fulminate o mercury in the composition does not exceed 25 pe cent, the above limit may be increased to 0·6 of a grain. Provided also that the whole is of such strength and construction that the ignition of one such cap will not ignite other like caps.

*Railway Fog-Signals*, of such strength and construction and containing an explosive in such quantity that the explosion of one such signal will not communicate the explosion to other like signals.

## OFFICE OF THE DIRECTOR OF FOOD SUPPLIES IN MYSORE, BANGALORE.

*Circular No. A. S.* 22—44-45, *dated 1st December* 1944.

*Subject* :—Payment of a revised price for grains purchased. Abolition of storage fee.

In continuation of this office circular No. A.S. 20, dated 25th November 1944, prescribing that the new prices are payable in respect of grains acquired from 16th November 1944, even though such grains belong to the old harvest, it is hereby notified for the information of all the Officers concerned and others that when higher purchase prices are paid no storage fee is payable at the rate of two annas per palla per month as was being done under the old order.

Deputy Commissioners are requested to instruct their subordinate officers to see that payments of storage fee is not made hereafter in any case in respect of the previous harvest for which revised prices are paid or for any grains of the new harvest. It has already been stated in another connection that all the surpluses are to be delivered in one lump and delivery in instalments has been prohibited. The question of storage fee does not therefore arise in respect of grains of the present and the coming harvests.

### PLACE OF DELIVERY OF SURPLUS GRAINS.

*A. S. Circular No.* 23—44-45, *dated 1st December* 1944.

Clause II of the Notification " Articles of Food Acquisition Order 1944 " prescribes delivery to be at the Government Purchase Depot notified in the demand list published at the chavadi in accordance with Clause 6 (iv), etc., of the Notification. The Amildars have to note the name of the depot at which delivery has to take place by the holders. In order to avoid possible misapprehension in this matter, the attention of the Amildars and other officers is drawn to the existing rules on the subject prescribing that the delivery should be at the nearest Government Depot irrespective of the fact that such nearest depot is situated in another taluk or another district. Deputy Commissioners are therefore requested to instruct the Amildars that the instructions already conveyed last year in this matter should be implicitly carried out and that the name of the *nearest* (*physically nearest*) depot should be indicated in the demand list to be published in the chavadi and the name of such nearest depots should also be mentioned in individual notices to be sent in H. ## OFFICE OF THE DIRECTOR OF FOOD SUPPLIES IN MYSORE, BANGALORE.

*Notification No. A. S. 24, dated 5th December 1944.*

ARTICLES OF FOOD ACQUISITION ORDER.

*Subject.*—Publication of demand lists in the Village Chavadies.

Sub-Clause (iv) of Clause 6 of the articles of Food Acquisition Order is interpreted in some cases as meaning that the publication by beat of *tom tom* and the affixing of demand lists in the chavadi of the village can only be done after all the cases in a particular village are completed by the Amildar. Such a course is very inconvenient and may lead to unnecessary delay. Amildars are therefore instructed to publish demand lists for such of the cases as are completed in each village as and when the cases get disposed of instead of waiting for completion of all the cases of a particular village.

2. Deputy Commissioners are requested to instruct the Amildars that the completion of the cases of villages should not be unduly delayed on any account.

HARVEST SCHEME.

Doubts have been entertained in certain quarters if the bonus of four annas per palla of paddy which was being paid for deliveries of surplus in the malnad districts, may be paid from 16th November 1944 also.

Revised prices sanctioned by Government and notified in notification No. S.D. C 219 C. 103-44-10, dated 16th November 1944, are to be regarded as the final accepted rates to be paid for purchases. No bonus is therefore to be paid in respect of any paddy received into the depot from 16th November 1944 onwards. Increase in prices has been quite substantial and all circumstances have been taken into calculation while fixing the prices. Officers are therefore requested to see the rates sanctioned and brought into effect from 16th November 1944 are adhered to.

## OFFICE OF THE DIRECTOR OF FOOD SUPPLIES IN MYSORE, BANGALORE.

*No. A*1-117—43, *dated* 18*th December* 1944.

**Press Note.**

1. Because of lack of stocks of Bengalgram in the State and the consequent soaring of prices, and also as a measure to prevent any serious future shortage in food, Government obtained considerable stocks of Bengalgram last year. These were released through recognised merchants, associations and Government depots to the public gradually. As there is no longer any need for Government to maintain stocks, the position with regard to import of Bengalgram having eased considerably, Government have decided to liquidate the small stocks still with them.

2. It is hereby published for the information of those concerned that arrangements have been made to sell these stocks of Bengalgram and hurigadale available in Government depots in public auction at the different places where stocks are available. The sales will be conducted by the concerned Rationing Officers or the Amildars or the Assistant Director of Food Supplies, Depots, Bangalore or the District Treasury Officer of the District depending on the area and jurisdiction in which the stocks are held. Intending purchasers may contact the aforesaid officers and obtain further details in the matter.
